Edamame

The Taste: Sweet & Fresh

MyFruit edamame has a method of hand picking by means of harvest plucked one by one directly from the garden, to keep freshness of edamame .The seeds of edamame would be sweeter, denser and fresher. Therefore MyFruit edamame has been equipped with circulation system to keep the freshness edamame stable.

Edamame is categorized as super food, high protein and fiber. Also, it contains 10% daily intake iron and vitamin C, 8% vitamin A daily intake.

Salak Pondoh Super

The Taste:
Sweet, Crunchy
Fragrant

Salak pondoh many favored consumers including from other countries, because it tastes good and as one of the source of nutrition. Salak containing nutrients an antioxidant like kiwi (Groinstein 2009).

Our agricultures have got healthcare insurance certified organic LSO, IMO standards for the quality of exports.

Salak pondoh super (salacca zalacca) or also called as a snack fruit is one of Indonesia's tropical fruits.

Subang Honey Pineapple

The kind of pineapple that is widely cultivated in Subang, West Java is the honey pineapple. This pineapple has a distinctive characteristic that is a very sweet taste.

The Taste:
More Juicy, More Sweet
and Fresher

Subang honey pineapple which has smooth leaves and crown, is slightly prickly (not even thorny), large fruit and the skin of the fruit tends to be flat. The Subang honey pineapple is unique in that it is larger in size, more durable (does not rot or wither quickly), has a lot of moisture and has a sweeter, sweet taste like honey.

Papaya Hawaii

It is suitable for consuming one fruit immediately or ready to eat. This type of hawaiian papaya is very popular with consumers.

The Taste:
Sweeter, Fresher
and Juicy

A special taste, with a very sweet brix 11-13 level, the shape of the fruit is small and looks round with an average of 0.3-0.5, the color of the flesh is bright red and the outer skin is dark green when ripe, the skin color is yellow bright. Another advantage of this hawaiian papaya is that it has affertase, which is a taste carried by the sense of taste, even its unique sweet taste and aroma.

Harumanis Mango

A kind of mango with so sweet, thick flesh of fruit and small seeds.

The Taste:
Sweet, Soft Texture, Good Fragrant

The selection of fruit when packaging is to determine ripeness of a fruit mango in 3 days and 7 days, so as to give certainty to consumers the best time consume fruit mango.

In addition, our mango will be given water heat treatment and coatings that mango could be stable for its freshness in temperature for 30 days.
